Title	Page
A rare cause of mechanical intestinal obstruction: biliary obstruction due to gallstones: our clinical experience with 12 cases and review of the current literature	23
Beyond analgesia: a perioperative continuum for diaphragm protection	51
Cardiopulmonary complications and critical care in scorpion envenomation: a bibliometric analysis	98
Diagnostic value of routine preoperative esophagogastroduodenoscopy and concordance with sleeve gastrectomy specimen histopathology: a single-center retrospective study	10
Difficult airway management in a patient with mucopolysaccharidosis type IVA (Morquio A syndrome): a case report	74
Effects of chromosomal heteromorphisms on reproductive health	68
Helicobacter pylori infection and acute pancreatitis severity: findings from a retrospective cohort study	88
Incidence of malignancy in appendectomy specimens: a three-year retrospective analysis	1
Perioperative anaesthetic management in robotic-assisted surgery: a bibliometric and visual analysis of two decades of research	79
Pioneering green surgery: exploring current positions, advances, challenges, and pragmatic solutions for resource-inadequate settings	41
Predictors of length of hospital stay after endoscopic transnasal pituitary surgery: a 5-year single-center retrospective analysis	5
Primary cervical hydatid cyst presenting as a subcutaneous neck mass: ten-year recurrence-free outcome without albendazole	17
Prior COVID-19 infection is associated with statistically lower but clinically minimal blood loss after total knee and hip arthroplasty	36
Rate and risk factors of surgical site infection following abdominal surgery; a prospective study	54
Rebound pain: the silent complication	21
Rectal ESD in the shadow of prior endoscopic intervention: the fibrotic pitfall	77
Relationship between wound fluid antibiotic concentration and clinical healing time in diabetic foot infections: a meropenem-focused analysis	94
The effect of the prone position on intra-abdominal pressure and renal function	30
The gut microbiota–follicular axis in pilonidal sinus disease: lessons from hidradenitis suppurativa and surgical implications	106
What do the numbers say and what do surgeons choose? A national analysis of general surgery subspecialty placements in Turkiye	61
