Title	Page
A rare case of acute abdomen: acute appendicitis in a patient with midgut malrotation	18
A rare indication for appendectomy: acute appendicitis following ingestion of a foreign body	39
Association of serum alpha-fetoprotein (AFP) with indirect prognosis in gastric cancer	45
Atypical arachnoid cyst with progression: a case report	66
Atypically located lipomas in the head and neck region: two case reports and a review of the literature	97
Comparative analysis of surgical outcomes: post-ERCP laparoscopic cholecystectomy versus elective laparoscopic cholecystectomy	21
Comparison of demographic and clinicopathological characteristics of refugees and Turkish citizens undergoing appendectomy	76
Comparison of early and late term results of onlay and sublay mesh approaches in open incisional hernia surgery	72
Comparison of resected lymph nodes and additional factors in colorectal cancer patients undergoing emergency versus elective surgery	86
Contrasted the clinical and radiological results of patients receiving cage-based bone grafting with PLIF surgical treatment that included bone grafting	49
Developmental anomalies of the breast in the pediatric population	12
Effect of glucose lymphocyte ratio on prognosis in patients operated with the diagnosis of pancreatic adenocarcinoma	29
Efficacy of combined lumbar plexus and parasacral sciatic nerve block in elderly patients undergoing hip fracture surgery: a retrospective analysis	56
Efficacy of thoracic sympathectomy in the treatment of hyperhidrosis and management of compensatory sweating	70
Evaluation of clinical and laboratory parameters of patients with the diagnosis of upper gastrointestinal system bleeding	1
Gastric volvulus in children: diagnosis and treatment approaches	60
Global research patterns and advances in comb burn treatment: a comprehensive bibliometric analysis	80
Incidental gynecologic cancers in women who underwent surgery for pelvic organ prolapse	93
Intestinal obstruction delaying the diagnosis of acute appendicitis: a case presentation	15
Intraoperative detection of bile leakage using hydrogen peroxide during laparoscopic cholecystectomy	43
Prognostic factors and survival of breast cancer in patients over 40 years of age	6
The impact of psychological factors on in vitro fertilization (IVF) outcomes: a comprehensive review	35
Atypically located lipomas in the head and neck region: two case reports and a review of the literature	97
Comparative analysis of surgical outcomes: post-ERCP laparoscopic cholecystectomy versus elective laparoscopic cholecystectomy	21
