

## 2023 Subject Index

Title	Page
A rare case of giant adrenal ganglioneuroma	100
A rare case: negative-pressure pulmonary edema after routine rhinoplasty	18
A rare cause of tumor ileus, neuroendocrin mixed non neuroendocrin neoplasm (MINEN): case report	96
A rare tumor cause of ileus: primary intestinal lymphoma	63
A successful falciparum malaria treatment with hemodiafiltration in an African patient	57
Anesthesia management in a pediatric patient with craniopharyngioma	14
Audio-vestibular signs in rheumatoid arthritis	30
Can inflammatory markers predict intestinal wall ischemia in sigmoid volvulus?	53
Clinical and ophthalmological findings in patients with Behçet's uveitis at first presentation	21
Closed globe injuries in children	82
Comparison of pathologies in patients operated for transverse colon tumor with embryogenic and anatomical insights	66
Comparison of the decompressive craniectomy results in patients with ischemic stroke and acute subdural hematoma and determination of prognostic markers	85
Crush syndrome: a review of current knowledge and treatment strategies	7
Current diagnosis and treatment in central serous chorioretinopathy	40
Evaluation of the effectiveness of the short-segment thoracolumbar instrumentation	71
Evaluation of the systemic inflammatory response in patients with a spinal synovial cyst or lumbar disc herniation	1
Post traumatic volvulus: a case report	60
Rectal perforation due to malignancy as a rare cause of acute abdomen in a third trimester pregnant patient: a case report	11
Success of the pain relief drug injections in management of the bertolloti syndrome: case report and review of the literature	21
The comparison of corneal endothelium morphology through specular microscopy in morbid obesity with healthy controls	78
The effectiveness of modified stone recurrence predictive score in predicting recurrence of urinary stone disease	49
The efficacy of erector spinae plane block (ESPB) applied under ultrasonography guidance in percutaneous nephrolithotomy operations	34
